EPEC | ELECTRONIC PIN EURO CYLINDER

EPEC | ELECTRONIC PIN EURO CYLINDER

The EPEC provides a multi-user PIN code functionality & management for Euro Cylinder lockbodies.

The Electronic PIN Euro Cylinder (EPEC) will help provide your door with a smarter lock. The EPEC replaces traditional fixed or floating cam keylock Euro cylinder with a digital-key & turn operation; while retaining the existing lock body and handle.

While most digital-key entry locks are only a single handle body lock option, EPEC is designed to fit the existing euro cylinder profile and provide a greater choice of designs in handle furniture and lock bodies.

The EPEC allows you to create and manage up to two groups and 12 unique PIN codes; you'll never have to worry about losing a key again.

PRODUCT DETAILS

MATERIAL	Stainless steel, brass and zinc construction
FINISH AVAILABLE	Satin Black Satin Chrome
SUITS	Standard Euro cylinder profile lock bodies
AVAILABLE SIZES	62mm Cylinder body 70mm Cylinder body
